
CAC Activities

Clean Air Partnership (CAP)

- **CAP** is a charitable environmental organization whose goal is to help municipalities become more sustainable, resilient, and vibrant communities where resources are used efficiently, the air is clean to breathe and greenhouse gas emissions are minimized.
- **CAP** serves as the secretariat for the Clean Air Council.

About the Clean Air Council

- Network of 29 municipalities and health units from across the Greater Toronto, Hamilton and Southwestern Ontario area.
- Represents over 60% of Ontario's population.
- Works collaboratively on development and implementation of clean air, and climate change mitigation and resilience actions.
- Municipalities benefit from actions that reduce energy use, reduce emissions, make the movement of people and goods more efficient, and make communities more livable, competitive and resilient.

Introductions

- Please introduce yourself
- The jurisdiction/organization you are from
- What you are hoping to get out of today?

September

- Corporate Energy Managers Webinar & Next Steps
- Ontario Building Code Consultations
- Green Fleets
- FCM Partners for Climate Adaptation Funding Proposal – Vulnerability Assessment Transferability and Application
- Freight

October

- Growth Plan Implementation Workshop – October 20th
- Renewable Natural Gas – October 27th

November 10th

- Health Vulnerability Assessment
- Results of health vulnerability (HV) – (including recommendations)
- Process, approach, methods and frameworks you each used for the HV
- Inputs that went into the HV
- Who was involved in the HV
- How they went about doing it
- Lessons learned
- Where they are going next with the HV –
- What actions to address vulnerabilities have come out of the work thus far
- Other topics you would like to see covered

November 24th

- Community Energy Financing
- City of Toronto
- Federation of Community Energy Cooperatives
- Co-Power

Upcoming in Early 2018

- Fostering Collaboration Workshop
- Green Procurement Webinars
- Mobility Options
- Community Climate/Energy Plans - Actions Matrix
- Transition 2050
- Green Development – CaGBC
- Air Quality Monitoring Workshop/Update
- Feedback on priorities for your jurisdiction....

Renewable Natural Gas

Presentations

- Presentations:
- Jennifer Green, Canadian Biogas Association, Renewable Natural Gas – Where we are now, where we could go and what we would need to do to get there
- Tom Chessman, City of Hamilton – Renewable Natural Gas Lessons Learned and Next Steps

Roundtable and Discussions

- Renewable Natural Gas Roundtable (updates from jurisdictions looking to advance RNG opportunities – what has been explored, what issues have come up, what business plan development has occurred, next steps?)
- Group Discussion on RNG Next Steps – What actions and policies need to occur to advance RNG opportunities?

RNG Discussion Starting points

- What questions do you still have re: Renewable Natural Gas (Technical, Policy, Business Case Development, Approvals?)
- What do you see as the pros and cons of the possible policy approaches to facilitating the advancement of RNG opportunities?
- What do you think are the priority to dos that need to take place in order to advance RNG opportunities? Who needs to be involved?
- What role can collaboration/ facilitation of discussions play in supporting the identified above actions? Who needs to be involved?
