**Smart EV Charger Management**

Charging is **tough!**

X Fragmented   **X** Unpredictable   **X** Insufficient
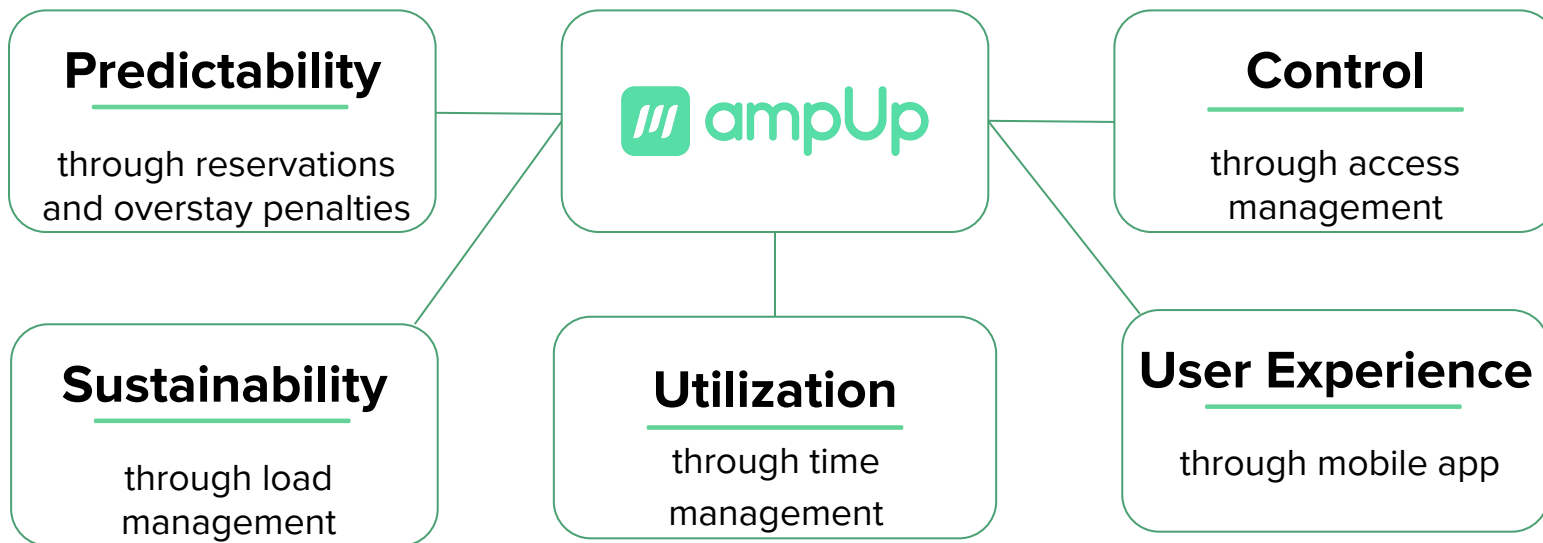

Future population is dependent on public/workplace charging

Charging is modernizing and getting more complex

Modernize with ampUp

Predictability

through reservations and overstay penalties

ampUp

Control

through access management

Sustainability

through load management

Utilization

through time management

User Experience

through mobile app

Serve your community better with ampUp

Pick & mix chargers
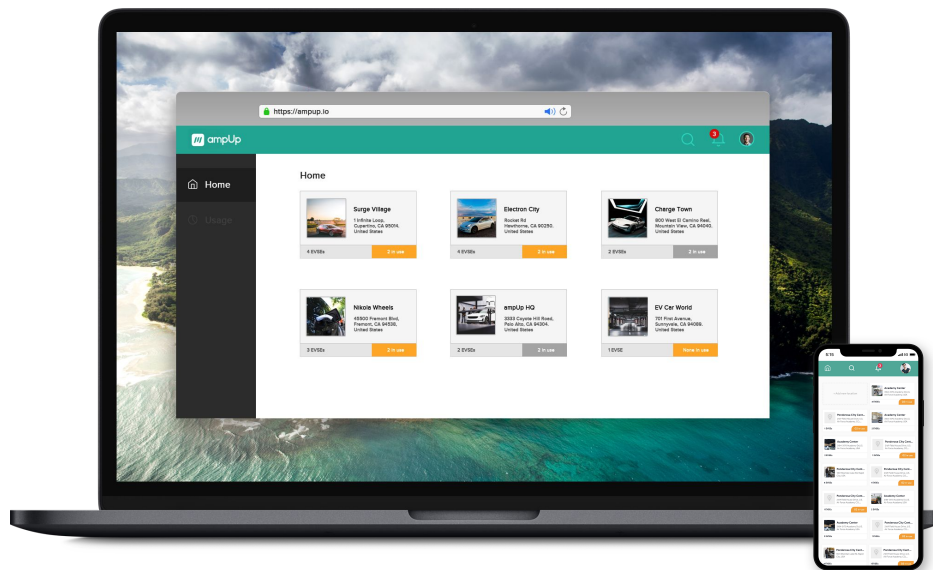

Pick from **15+ products**

ampUp **install and set up**

Manage and optimize through ampUp's web admin tool

Consumer facing app

Competitive pricing

# Community Manager Platform

Hosting

Airbnb for EV chargers app

Why use smart chargers?

Improve utilization and profits

Earn more for your excess solar vs. selling back to the utility
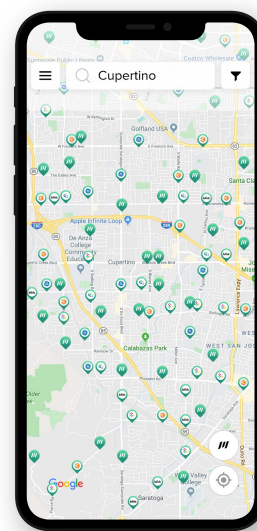

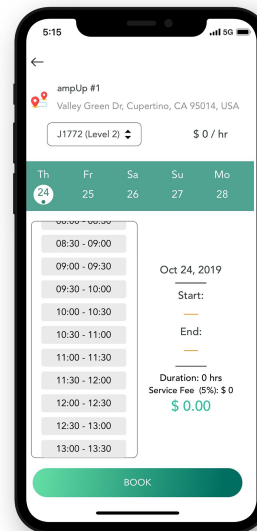

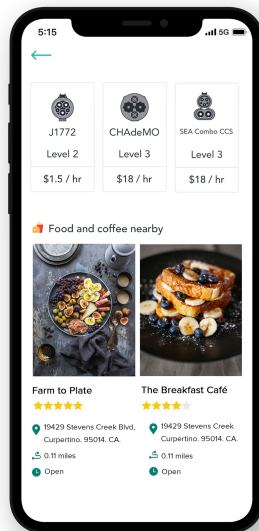

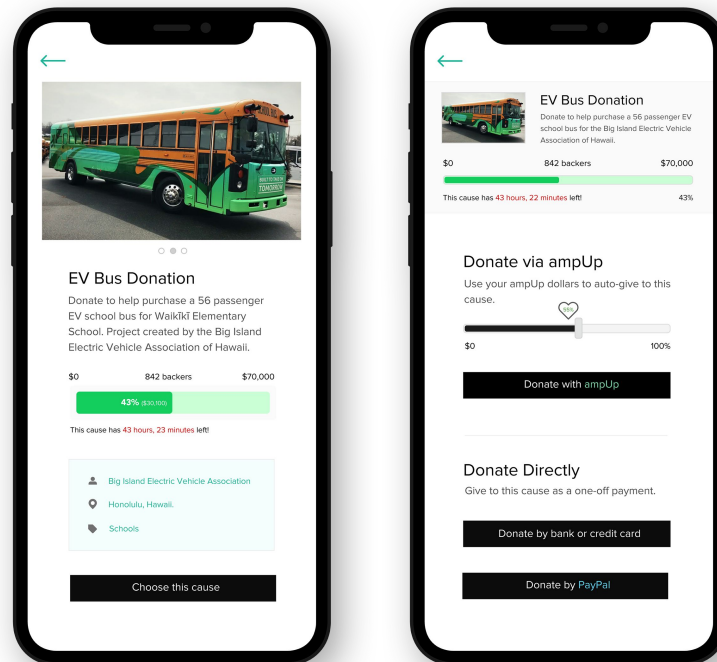

Support the EV Community

ampUp Mobile
